Fire Districts continue to work together

In an effort to continue finding ways to work together and improve service, the Lockport Township and Homer Township Fire Protection Districts have entered into another Intergovernmental Agreement to share services. During the December 2018 board meetings at both Districts, the Boards of Trustees approved the merging of the fire prevention divisions.

The latest agreement will combine the fire prevention divisions into one group that will complete inspection and plan reviews for either District. The Director of the combined division will be Dave Bricker of the Homer Township FPD. The inspectors will be the current Lockport fire inspectors: Greg Baez, George Drobney, Ken Fijan, Bob Schipits and Dale Smith.

The districts have been working together on fire prevention issues for the past couple years on an as needed basis. This agreement allows the employees of either district to work in either district and there is no additional cost to either district. The administrators of the fire districts continue to meet and discuss ways that they can work together and save tax payers money.

If you have a business in either District, you will see inspectors that may be wearing a Lockport or Homer uniform. If you have questions about the inspection process, please feel free to contact Dave Bricker at 815-715-5448.
